The Breath of Life.

It's a significant fact that the strong
est animal it its size, the gorilla, also
has the largest lungs. Powerful lungs
mean powerful strength. How to keep
the breathing organs right should be
man's chief study. Like thousands
of others, Mrs. Eva A. Stevens, of Port
William, G., has learned how to do this
by writing: "Three letters of Dr. King's
New Discovery stopped my cough of two
years and cured me of what my friends
thought consumption. It's grand for
throat and lung troubles." Guaranteed
by Red Cross Pharmacy. Price 50c and

TREES.

The encyclopedias sheds its bark instead
of its leaves.

Henry E. Turner of Augusta, Me.,
has an apple tree which is in full bloom
now at the same time that there are
clusters of ripening fruit on the
branches.

In the gardens of Baby castle, Dur-
ham, England, is a big tree which has
a spread of branches from twenty to
twenty-four feet. It was brought from
1786 and is kept under glass.

E. F. Field of North Paris, Me., has
a tree in his pasture which is a cross
between a spruce and fir, the bark be-
ing that of a spruce, and the branches
resembling a closely. It is quite a
large tree, surrounded by ten to twelve
smaller ones of the same species.
